Medical Clinic of Houston Expands by Adding Seven Internal Medicine Physicians

Aug. 04, 2010 (Houston) . . . Medical Clinic of Houston (MCH), established in 1968 and one of Houston's premier private physician practices, today announced the addition of seven internal medicine physicians.

"It is gratifying that, as we celebrate our first anniversary in our new facility, we were able to recruit seven more primary care physicians to our practice reinforcing the exceptional level of quality healthcare, extraordinary convenience, and robust services we provide our patients all in one location." said Martin White, M.D., MCH's managing partner. In addition to our traditional medicine focus, a few physicians are trying new models of medicine which demonstrates the Clinic's flexibility in meeting the needs of all patients.

The physicians joining MCH are:

Thomas R. Lux, M.D.

Dr. Lux joined MCH on May 3. Dr. Lux is board certified in Internal Medicine with two decades of experience treating patients. He completed his medical degree and residency at The University of Texas Medical School in Houston. Dr. Lux has been a faculty member at one of Houston's medical schools since 1994, and has a strong interest in outpatient, preventive care.

Kelly M. O'Brien, M.D.

Dr. O'Brien, board certified in Internal Medicine, joined MCH on July 1. Dr. O'Brien, who completed her residency at The University of Texas Medical School in Houston after obtaining her medical degree at The University of Texas San Antonio Health Science Center, has a strong knowledge of outpatient medicine. Not only has Dr. O'Brien been providing outpatient internal medicine care, she has taught and mentored residents and medical students since 2007.

M. Yesim Ersoy, M.D.

Dr. Ersoy also joined MCH on July 1. Dr. Ersoy completed her residency at The University of Texas Medical School in Houston after receiving her medical degree from the Marmara University School of Medicine in Istanbul, Turkey. Also board certified in Internal Medicine, Dr. Ersoy gained her previous clinical experience in practice and teaching since 2007. She has developed significant experience and skills in preventive medicine, diabetes and hypertension management, pre-operative assessment, and cholesterol management.

Michael A. G. Perdon, M.D.

Dr. Perdon, who is board eligible in Internal Medicine, will be joining MCH on Aug. 19. Dr. Perdon completed his residency through Weill Cornell University at The Methodist Hospital in Houston. He received his medical degree from the University of the East Ramon Magsaysay Memorial Medical Center College of Medicine in the Philippines. Dr. Perdon's skills and interests include acute and sub-acute care and medical education.

Sean K. Martin, M.D.

Dr. Martin, who is board eligible in Internal Medicine, will be joining MCH on Aug. 30. Dr. Martin completed his medical degree at Baylor College of Medicine and his residency at the University of Colorado at Denver. Dr. Martin's skills and interests include preventive medicine and medical education.

Asha Kuruvilla, M.D.

Dr. Kuruvilla will be joining MCH on Nov. 1. Dr. Kuruvilla completed her residency at The University of Texas Medical School in Houston after completing her medical degree at St. John's Medical College in Bangalore, India. Dr. Kuruvilla has a strong foundation in outpatient internal medicine and has an interest in teaching medical interns and residents.

Derek S. Dawes, M.D.

Dr. Dawes, board certified in Internal Medicine, will be joining MCH Jan. 3, 2011. Dr. Dawes has been practicing since 2008 as a hospitalist-specialist. Dr. Dawes attended medical school and completed his residency at The University of Texas Medical School in Houston. Dr. Dawes is looking forward to transitioning from an intense inpatient program where he cared for acutely ill to an outpatient practice where he can focus on preventive medicine.

"The addition of seven physicians with traditional internal medicine practices follows MCH's desire to be predominantly primary care based with subspecialty expertise available," said Dr. White.
